PRODUCT DESCRIPTIONS

A = Apple

P = PET

T = TRS-80

From the Continuing Education Series:

STOCK OPTIONS: (P, A)

Make informed option trading decisions in minutes with this easy-to-use package. Based on industry-accepted models, STOCK OPTIONS processes readily available information from the financial pages of your newspaper to improve the risk/reward ratios of your investments.

FINANCIAL ANALYSIS: A Tutorial (A, P)

An interactive learning cassette with chapters on Risk, Short-term and Intermediate-term Financing, Financial Statements, and Key Business Ratios. The user is then put into the position of having to use these concepts by playing the Meany Manufacturing Business Game.

TRANSACTIONAL ANALYSIS: An Introduction (A, P)

An introduction to T.A. — a system for understanding human behaviour. Chapters include: You As A Person, Stroking, Transactions, Are You Listening?, the Balancing Game. This interactive learning cassette will help you gain a better understanding of why you get along with some people and not with others and may give you a better understanding of yourself!

From the Home Entertainment Series:

WHEELER DEALERS: (A)

The most advanced financial simulation on the market, by Dan Bunten. WHEELER DEALERS comes complete with four custom-manufactured hand buttons which allow for real time competitive bidding and which means that players never touch the keyboard after the market opens! Easy to play — difficult to master. Also recommended as a teaching aid for economics and business students.

PIGSKIN PLAYOFFS & ELECTRIC MAZE: (A)

Pigskin Playoffs, the major attraction of this package, is an action-packed simulation football game. A game which can be played at any speed your fingers can move the keys, constantly testing your eye-hand coordination. Effective use of the noise making capabilities of the APPLE are employed to add life to the program. Can be played by one or two persons with the computer always playing defense. Included in the package is Electric Maze. Here is a superb test of reflexes, designed to operate at 5 speeds which the user can set (We know of no one who has mastered Super Ace speed!). Simply manoeuvre the cursor along the maze corridors to the exit...but watch out for those walls — they're hot!

BULLS AND BEARS: "The Microcomputer Game of High Finance" (A, P, T)

If you missed all the excitement of the CRASH of 29 don't despair. BULLS AND BEARS brings it all back. Are you a clever speculator...or an astute chairman of a powerful corporation...can you master the stock market — outwit your fellow players? BULLS AND BEARS may be played by up to five players and your computer will be your banker and stock ticker. Easy to play, this game will challenge you time and time again. How many shares should you buy...when should you sell...what will the earnings per share be next year...how many production units can your company afford... will you be the victim of a take-over attempt? This may be your only chance to make a fortune...but please...be a good sport when you lose. After all it is only money.

KIDSTUFF: (A)

A delightful assortment of puzzles, riddles, jokes and brain-teasers created for your kids by our kids.

WARLORDS: (A, P, T)

It is the Dark Ages, in the ancient kingdom of Nerd, and all is chaos. King Melvin has died without an heir and the country has fallen into the hands of four powerful and vile WARLORDS. A power struggle is taking place to see who will emerge as the new King. You and the other players are these WARLORDS and, as you brood in your castle, you will have to decide what combination of military might and skilful diplomacy will lead you to victory. It would be foolhardy to wage war against all others simultaneously, yet...will the alliance you make stand the test of battle? Should you double-cross him before he screws you?

And what of the serfs? You will have to tax them heavily to wage war but not to the point of plague and famine. Will your troops control the country-side or lay siege to the towns and capital?
Whoever said "war is hell" never played WARLORDS.

MICROTRIVIA: (A, P)

What happened on Napoleon's wedding night...In Star Wars, who was the leader of the Storm Troopers ...What do Jumbo and Trigger have in common...? The answer to these and dozens of other weird, wonderful questions are found in MICROTRIVIA. Match your wits with RALPH THE TRIVIAL COMPUTER and then, when rendered witless, inflict the same fate on your unsuspecting friends. Speakeasy's MICROTRIVIA is certain to make them feel totally inadequate.
WARNING...DO NOT LET YOUR CHILDREN PLAY — THEY WILL CERTAINLY KNOW MORE THAN YOU.
MICROTRIVIA is not a serious, educational simulation designed for Ph.D. candidates and is best played at a party, along with plenty of food and drink. All kinds of famous people have not played MICROTRIVIA. PRESIDENT CARTER has not played MICROTRIVIA. BOBBY ORR has not played MICROTRIVIA.

SPORTSTRIVIA: (A, P)

SPORTSTRIVIA takes some of the more popular sports such as football, golf and hockey and quizzes you on such subject areas as nicknames, individual and team wins and dates. The game can be played by a single sports fan or can entertain a whole cheering section. Sportstrivia is the microcomputer answer to the sports maniac in your house.
